

English Translation of App Requirements

1. General UI & Sign-up

- App UI Color: The main UI color of the app will remain the same as the previous version, using an off-white/cream color theme.
- Sign-up Screen:
 - The Sign-up button should be slightly larger.
 - A text link below it should display: "You have an account? Sign in".
- Home Screen: After login, users will see two primary buttons:
 - Mock Test
 - Solution
- Animation: Add two attractive animations above these buttons similar to the previous app.

2. Mock Test Screen

When users click the "Mock Test" button, they will see two centered options:

- Daily Mock Test
- All Mock Tests

2.1 Daily Mock Test

- Selection Process:
 - Class Selection: Four classes will be available (Class 9, 10, 11, and 12).
 - Subject Selection: After selecting a class, subjects uploaded from the admin panel (Bangla, English, History, etc.) will be displayed.
 - Test List: After selecting a subject, the mock test Name and Description will be shown below the subject, similar to the previous quiz structure.
- Test Structure:
 - Each mock test will contain 10 questions.
 - Time limit: 3 minutes 20 seconds.
- Test Screen UI:
 - Top-left corner: Question number (e.g., 1/10).
 - Top-right corner: Timer icon with remaining time (3:20).

2.2 Daily Mock Test Rules & Schedule

- Upload Schedule: New tests will be uploaded daily from Monday to Saturday.
- Sunday Special: On Sundays, all tests from Monday–Saturday will be displayed together for revision and practice.
- Auto Removal: After 12:00 AM, that day's test will automatically be removed from the app.
- Auto Repost: Questions will remain stored in the database. After one year, the same test can be reposted automatically or manually by the admin.
Example: A test uploaded on 10/05/2026 will disappear on 11/05/2026 but can automatically reappear on 10/05/2027.
- Important: The admin panel must support scheduled posting.

3. All Mock Test Screen

- Navigation Flow:
 - Select Class
 - Select Subject
 - Select Chapter
 - Select Set (Set-1, Set-2, Set-3, etc.)
- Feature: These sets will permanently remain available and include complete solutions.

4. Submit & Results

- After submitting a mock test, a popup box will appear at the center of the screen.
 - First, a "Thank You" message will appear.
 - After 1.5 seconds, three buttons will be displayed:

1. Check Answers
2. Retake Test
3. Share (directly shares the app download link).

5. Solution Screen

Users clicking the “Solution” button from the Home Screen will see:

- Question & Answers
- Suggestions
- Previous Year Questions
- Question & Answers section will display class-wise cards from Class 5 to Class 12.

6. Question & Answer Section Details

- Step 1: Show all subjects of the selected class.
- Step 2: Show chapters of the selected subject.
- Step 3: Show question types:
 1. Very Short Questions
 2. Explanatory Questions
 3. Essay-Type Questions
- Step 4: Clicking a question type will display all questions and answers.
- Feature: Users should be able to copy the questions and answers.

7. Suggestion Screen

- Users will see four classes (9, 10, 11, 12).
- After selecting a class, subject lists will appear.
- Clicking a subject will show suggestion names, and clicking a suggestion will open it.

8. Previous Year Questions Screen

- Users will see three options:
 1. Madhyamik
 2. Class XI
 3. Higher Secondary
- After selecting a category, available years will be displayed.
- After selecting a year, subject lists will be shown.
- Selecting a subject will display the questions and answers for that year.

9. Important Technical Notes

- Question Format:
 - All Mock Test questions will follow the MCQ pattern.
 - All Solution section answers will be one-line answers.
- Bottom Navigation Bar (5 Icons):

1. Home
2. Previous Mock Tests
3. Live Mock Test
4. Search
5. Profile

- Notification System:

A notification system must be added so users can receive alerts whenever new tests or updates are published.
